HATCH TRIM H111

CEILING HATCH FRAME

Up to 600mm x 600mm Apertures

H111 Frame Only

- Fast and simple to install.
- Pack includes side and corner trims.
(Hatch panel not included.
Cut panel from Gib Board or
other material to match
ceiling.)

HATCH TRIM provides:

- A neat and easily installed finishing trim to ceiling and loft access panels.
- It can be installed in minutes (no mitres to cut) to suit any square or rectangular opening up to 600 x 600mm.
- Manufactured from high impact white PVC.
- HATCH TRIM ensures a professional finish that does not require painting.
- May be painted if desired to match other finishes.

INSTALLATION

- Cut T section to lengths required less 120mm.
- Place centrally along joist or trimmer and fix using 38mm round head wire nails to nail through holes provided.
- Position corner mould piece over cut edges of T section and nail through fixing holes provided.

NOTE: The technical information and suggestions for use and application presented herein represent the best information available to us and are believed to be reliable. They should not however be construed as controlling suggestions and there is no warranty of performance of our materials either expressed or implied. We urge that users of our materials conduct confirmatory tests to determine final suitability for their specific end uses. All dimensions are nominal. We reserve the right to make changes or to withdraw designs and products without notice.
